

**Year 7**

Through the Fantastic Plastic project you will be using recycled plastic bags and researching alternatives to plastic bags. For an extension homework investigate how plastic bottles can be recycled. Write a report in your own words and include a range of examples of products.

**Year 8**

During the Year 8 project you are designing and making your own unique Pugly and many of you will make it from polyester fleece. For an extension homework to help you achieve a grade 6 investigate how polartec fleece is made from recycled plastic bottles.

**Year 9**

During the Year 9 project you are designing and making your own textile product. For an extension homework to help you achieve a grade 7 you can research the working properties of polyester and cotton.
