

20th February 2017

Dear Parent/Carer

Re: Year 11 Maths Homework

As you are aware the Government expectation is that every student achieves a pass at GCSE Maths. As a department and school this has always been our vision. In order to support this vision and the progress of our students we will, following the February half term, be setting two maths past papers each week as homework. Not only will this practice help improve the maths of our students but it will also give them a basis for their revision in the weeks leading up to their exams, allowing students to focus and hone their revision to support their own learning.

These papers will be put on Show My Homework and can either be printed out to be written on or completed on the computer and printed or emailed to the appropriate teacher.

We are offering a print out of all of the 22 past papers which will be available for purchase on Parent pay for £5.00. The charge simply covers the copying cost.

It is imperative that past papers are being completed on time so that students do not fall behind; failure to hand in completed homework will result in a lunchtime detention and failure to submit homework the following day will result in an after school detention.

We welcome your support with this initiative in order to secure success for our students.

If you wish to discuss this further please do not hesitate to contact me.

Yours sincerely

J Thorburn
