

Extension Homework Year 10 Beauty

Hair and beauty science visit BES beauty science on YouTube from that go onto their website and research the products and the benefits of them and the ingredients used within the product.

Jason then please add research face masks, hair spray, hair mouse and facial scrubs – describe the benefits of the products and the effects they have on the hair or skin. Select one of the ingredients from each of the products describing what the function is of that ingredient.

1960's project – please produce a 1960's project linking it to make up or hair styles of the 1960's

Include the following.

Make up styles / hair styles of the 1960's

Products used in the 1960's

Different make up / hair techniques used

Fashion icons who influenced the 1960's

Draw a comparison to make up or hair styles of today.

Extension homework year11 Beauty

Jason please keep what is already on the website plus:

Project for moving on into Sixth Form

I would like you to research the following eye treatments

Tinting

Brow shaping

Strip lashes

Lash extensions

Lash perming

Explain the benefits of all the treatments, explain how the treatment is performed and what type of client would best suit these treatments. Once you have compared each one and explain which treatment you think is best and why.
