

## Facial Electrical Treatments

Electrotherapy is very popular in Industry with more clients than ever looking for a more youthful appearance.

Following on from your level 2 facials and level 3 holistic facials, I would like you to research the following and make notes under the following headings.

What is it and what does it do?

Remember to state the effects and explain the benefits to the client. What skin type/condition would the treatment be most suitable for and describe any contra actions that would prevent treatment.

### **High Frequency**

### **Facial Galvanic**

### **Faradic**

### **Micro current**

### **Vacuum Suction**
