

## KS4 ICT Extension Work - Autumn Term 2016

### BTEC Level 2 First Award in ICT

---

**Create a training video to help other students learn how to create an animation banner using Adobe Photoshop and three layers.**

The Computing & ICT department are planning to help students with their individual learning of how to create digital graphics. They have asked for your help to create a series of videos.

For this term, using appropriate software, you are required to create the first training video of how to create an animated banner and save it in an appropriate format for students to insert and use in their work. The video clip should be no more than 5 mins long in playing time. It should also include audio sound and clear visuals.
