How To Videos

Dear Parents and Carers

As we continue with online learning and remote lessons, we are aware of some of the challenges this can pose. In order to support you and your daughter we have created a series of short video clips that explain how to use Office 365 to support online learning.

All of the videos can be accessed on the school website by [clicking here](#).

- Video 1: How to Download Office 365
- Video 2: How to Navigate Office 365
- Video 3: An Introduction to using Microsoft TEAMS for Lessons

If you have any further questions about these topics or if you have any suggestions for any further guidance that would support your son or daughter, then please contact us office@swr.school.

Kind regards

The Teaching and Learning Team
