

Information Technology

The following resources are for BTEC National extended certificate ICT course which is equivalent to 1 A level. This course has got 4 units (2 examinations and 2 coursework). The summary of the units and topics are inside a power point presentation called "**overview of BTEC ICT National**" and the word document called "**BTEC Ext Cer ICT**". In order of understand the course please read these documents.

The other resources are all **about Unit 1 Information Technology Systems** which is the first unit that we are going to start in Sep. This is an examination unit and there is a power point presentation called "**Unit 1 exam**" which explains the exam and the main topic of the exam please read this slide.

The rest of the resources are reading materials for unit 1(digital device), the power point presentation called "**preparing for digital devices**" has got information about digital devices and also has got some **questions** which you need to **answer them**.

The other word documents are reading resources for digital devices and you need to read them before attempting to finish the **digital devices worksheet**.
