Year 13 based on 51 students

Higher Education (University)	Russell Group University	Further Education	Employment	Neets
58%	2%	2%	38%	2%

Work Experience

The majority of our Year 12 students undertook and completed their work experience programme. As part of this programme all students received constructive information about their future pathway options highlighting educational pathways and career routes to enable the students to make informed choices.

Review of Programme

Student, Parents / Carers and employers' feedback on careers events, presentations and workshops has been used to gauge the impact of the careers support offered and revise the careers programme to suit the needs of the students and address the local market's needs.
